DIATOM

Since 2021, Diatom brings together a multidisciplinary creative trio. Playing with scale and material, the studio is rooted in the fold, a language connecting the forms of nature. Folding offers a rich potential for aesthetic and poetic expression, full of meaning and surprises, which fascinates the studio.

With exceptional craftsmanship, the studio specialises in creating custom scenographies, sets, and props for performing arts and events.

Using paper as their preferred material, Diatom ensures the design and installation of original and sensitive creations.

Dewi BRUNET

dewi@diatomstudio.com

Dewi is an artist based in Brussels. He specialises in monumental folding, origami-robot, and textile pleating. Through his works, he explores our relationship between nature and technology.

Théo PHILIPPOT

theo@diatomstudio.com

Théo is a lighting designer based in Rennes. He enhances folded scenographies using light as his main medium of expression.

Gwenaël PROST

gwen@diatomstudio.com

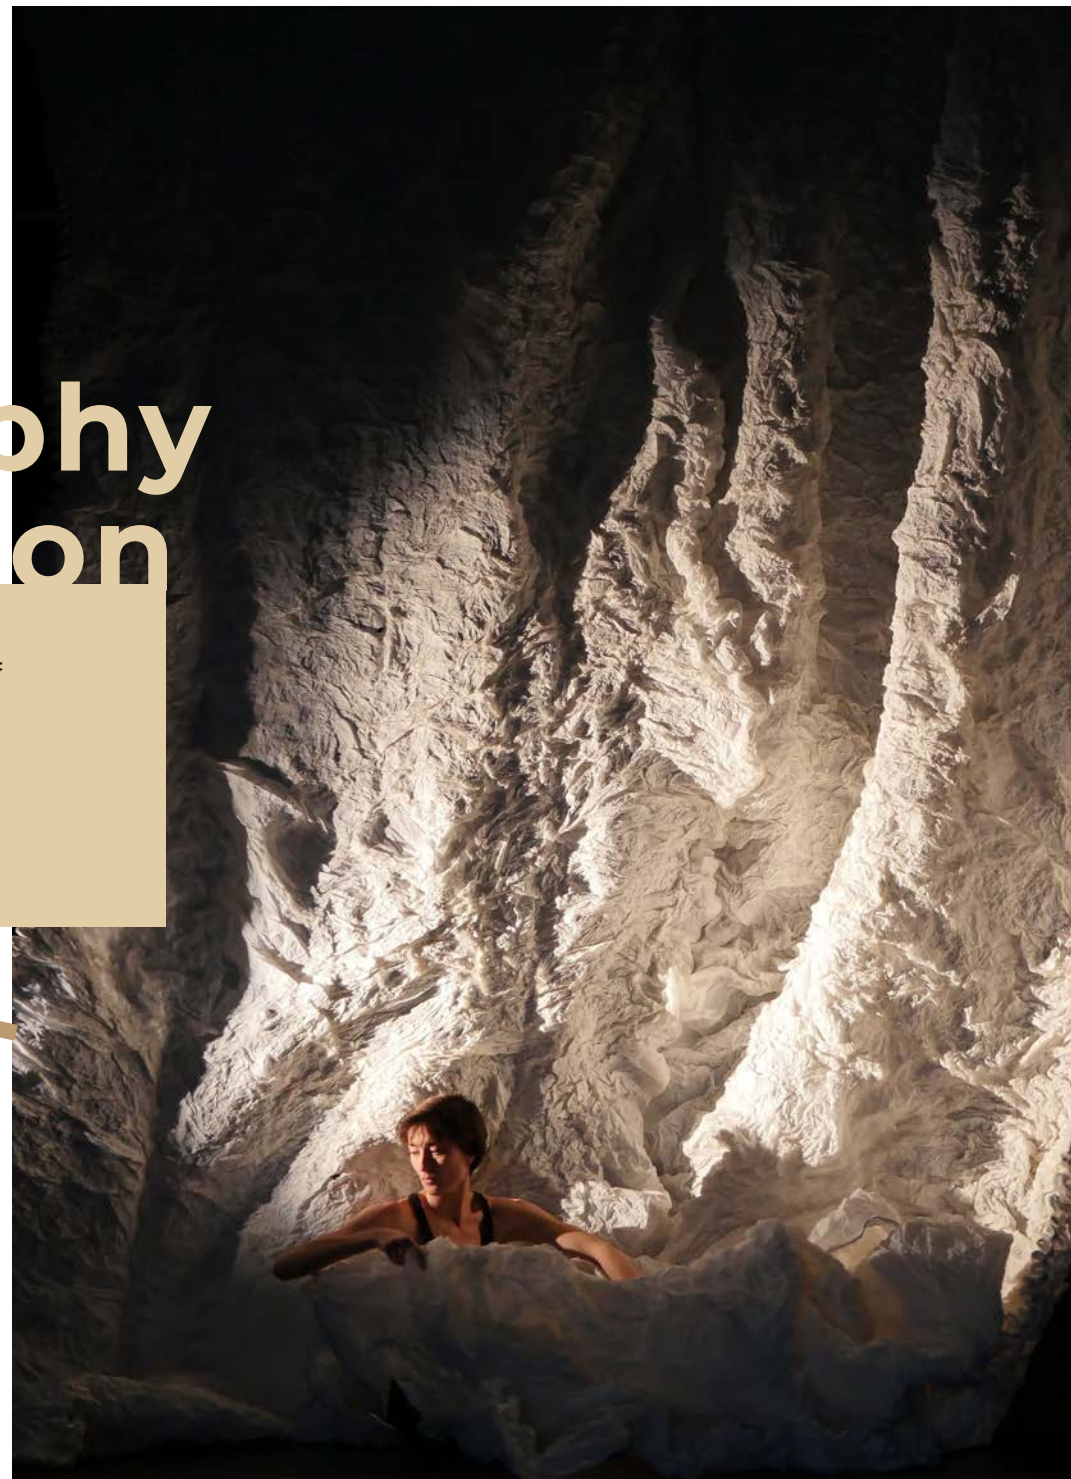

Gwenaël is a designer based in Rennes. Folding is central to his practice through education and material experimentation. The fold fascinates him, leading into the inexhaustible relationships between art and science.
